BOYS' PLAY NEARLY RESULTS IN TRAGEDY

"INDIANS" CAPTURE "COWBOY" AND NEARLY BURN HIM AT THE STAKE.

CHARLES ROSENTHAL WAS VICTIM

Boys Playing Indian and Cowboy Caught Youngster and Tied Him to a Tree—Set Fire to the Leaves Around Him But Pluck and Ingenuity Saved Him.

Charles, the six year old son of Mr. and Mrs. Max Rosenthal, narrowly escaped serious injury as the result of childish play early this week when he was captured by a gang of young "Indians" who tied him to a tree and piled leaves around him, setting fire to the leaves.

The occurrence resulted from the suits which the boys were wearing. Recently Charles became the possessor of a fine new cowboy suit. Attired in his broad brimmed hat, and looking a typical little cowboy, he went out to meet the "Indians," all playmates who were Indian suits.

Tied Him to Tree. But the Indians captured the cowboy, after a mimic battle, and proceeded to tie him to a tree. They put the rope around his body several times and piled leaves about him. Until that time the sport was just as enjoyable to Charles as it was to the Indians, but when they set fire to the leaves and departed the young captive exhibited true cowboy traits. Fortunately the knots tied by the Indians were not strong and the little fellow, by persistent and strenuous struggling managed to extricate himself before the fire reached his clothing.

However, the incident has caused a feeling of apprehension among the parents who have heard of it, for had the rope which bound the lad been securely tied a pathetic and tragic accident would surely have resulted.

MRS. ISAAC ANKENY IS CALLED IN DEATH

AGED LADY IS RELEASED FROM YEARS OF SUFFERING—FUNERAL TOMORROW.

Mrs. Isaac Ankeny, who last Saturday was 80 years old, died at her home at 14 Chatberlain street, at 10:45 last night, from old age and the suffering resulting from a broken hip, which she sustained four years ago and from which she had since been bedfast.

Miss Rosanna Rhodes was born in Somerset county, Pa., Nov. 24, 1832. About 60 years ago she was united in marriage to Isaac Ankeny and they lived in Pennsylvania until a quarter of a century ago when they came to this vicinity. The aged lady has since resided here.

Ten children were born to the union, six of whom survive, four sons and a daughter preceding her in death. The surviving children, who with the husband survive and mourn the death of a dutiful, kind mother are: Nelson of Dixon; Albert, of Danport, Ia.; Mrs. Amos Shallis, Somerset Co., Pa.; and Mrs. Lizzie Lindsey of Dixon. Three brothers and two sisters also survive: John S., Joseph P. and Alex. Rhodes, all of Dixon, and Mrs. Levi Berkley and Mrs. Henry Gardner, Somerset county.

The deceased was an estimable lovable old lady and hosts of friends will tender sincerest condolence at this time.

The funeral service will be held at the house tomorrow at 3 p. m., Rev. Altman, pastor of the Lutheran church, officiating. Burial will be at Oakwood.

NOTED SPECIALIST HERE.

Dr. G. F. Lydston, wife and daughter Josephine, who spent Thanksgiving with Mr. and Mrs. C. D. Anderson, returned to Chicago this morning. Last evening an informal meeting of a number of the doctors of the city was held at the Elks club to meet the noted specialist.

MURPHY CALLS WARD MILLER HUMAN CRAB

DIXON PLAYER WITH THE CUBS IS MORE VALUABLE FOR HIS DISPOSITION

According to George C. Rice, baseball expert of the Chicago Journal, Ward Miller of this city, who is the regular center fielder of the Cubs, is a "crab" and is doubly valuable because he is. Mr. Rice says in his paper:

According to President Charles W. Murphy, the name of the west-siders should be changed from Cubs to Crabs next year. The Cubs boss is worrying about the safety of umpires assigned to work in games on the local grounds next season because there will be so many mean tempered players on his team.

In Johnny Evers, the new manager, Murphy has selected the biggest crab in the game according to every high class judge of the sport. Evers doesn't even deny the fact, but on the contrary has taken great delight in the past in labeling himself the "Human Crab."

McDonald Bites Umpires

Eddie McDonald, the new utility secured last Tuesday from Sacramento, is also a ferocious proposition for the umpires. This is one reason why Evers traded Downey for him. No one who watched McDonald play last summer with the poor old Braves thought he was a whirlwind of a player, but the Cubs leader wants him, he says, because he is a wise player. Part of his wisdom consists of snapping at the umpires when those individuals call the close ones against him.

Then Evers will have his old team-mates, Miller and Zimmerman, to make up the list of crabs. Miller, who has been with the west siders, only a year, is regarded as one of the most ill-tempered of all players in the old league. His looks are particularly favorable for such a reputation. While he is off the field, Ward Miller is a pleasant spoken man, but the minute he gets into his fighting clothes his whole demeanor changes and he is as apt to bite any one who enters an argument with him, as not.

Heine Zimmerman qualifies for the reputation because of his record during the last season. Heine has been a regular on the team for only one year, but in that time he has taught all the umpires in the league that he deserves wholesome regard for fear he will chew off an ear or an arm any time they call him out at the plate when he slides in on his nose.

Eight Strenuous Fighters

With five such strenuous fighters as the above, it is no wonder that President Murphy is already wondering where he will finish next season. True Evers has made a solemn promise that he will try his best to control his temper and cut out the crabbing, but that is no proof that he will be able to do so. Even if the manager does succeed in calming himself on all occasions, he will not be able to control the fiery dispositions of the other four members of his team.

The appellation of "Crab" has been applied to all players who lose their tempers on every occasion that things go wrong. They are always good fighters and generally valuable men for their team. Players who fight hard to win, are more valuable than those who do not. Managers of big league teams have come to regard the crabs as very desirable members. Miller Huggins and Otto Knabe are two notable crabs.

LIGHT COMPANY BOOSTS TOWN

The DeKalb-Sycamore Electric company is doing a little boosting right at the present time of an advertising nature. On the side of its big power house fronting the Chicago and Northwestern tracks is a big sign admonishing everybody to "boost for a bigger, busier and better DeKalb."

GOODFELLOWS HAVE ORGANIZED IN DIXON

THE GOODFELLOWS PROPOSE TO BRING YULETIDE CHEER TO DIXON'S POOR.

FOR LITTLE CHILDREN AND OLD PEOPLE

Enter Your Name on This Honorable Roll—The Help of Every Citizen Is Needed.

The Telegraph has the honor of being the publicity organ and public representative of an organization that has been recently formed in Dixon, a charitable organization whose sole object is to distribute good cheer in the form of substantial Christmas gifts. The only recompense the members of this club get will be the quiet little pat on the back that their own conscience will give them when their work is accomplished. The members of the club, to be known as the "Goodfellow Club" will not even allow their names to be published.

The Telegraph would be pleased to call itself the originator of this movement, but in truth it cannot, for the man who conceived the idea in Dixon is one who recently moved here from Chicago and he is the man who first thought of the plan in that city, who founded the Goodfellow club of Chicago which has taken up by the Chicago Tribune three years ago and which last year alone gladdened the hearts of 60,000 ragged little urchins in the great city with useful little gifts. This gentleman handled the bulk of the club's business in Chicago and became so deeply interested in the movement that he wanted to start it going here. He came to the Telegraph office and told his plan.

The gentleman (who wishes his name withheld) who founded the Goodfellow club of Chicago, now resides in Dixon and he wishes to see the movement started here. The Telegraph feels greatly honored in being useful in starting it.

The membership of the Goodfellow club is unlimited. Anyone can join, and is hereby invited to join the club. A coupon, which will be found in another part of this paper, properly filled out and mailed to the Goodfellow Club of Dixon, care of the Evening Telegraph office, will make the sender a member.

The Club's Plan.

The plan of operation, which will take place between now and Christmas day, is this:

The club secures the names of poor and destitute children and old people. The name of every child and every old man or woman in Dixon, who is without the necessities of life, such as clothing, fuel, food, etc., is wanted in this list and the aid of all city and county officials, church and charitable societies, etc., is solicited in this task, for we want the list complete, that no one will be missed by Santa Claus on Christmas eve or morning.

Those who wish to become members of the Goodfellow club can do so in two ways. They can fill out the coupon, saying how many children or old people they will take care of and giving the ages and sex they wish to help. We will then go thru our list and select names that correspond in age and sex asked for and those names, together with a list of things each one needs. The Goodfellow, thus prepared, will do the rest himself. He will fill out the list from his own possession or things that he buys and on Christmas eve or morning will go to the address given and leave the basket from "Santa Claus."

The other way is to send cash to the headquarters of the Goodfellow club and let the Goodfellow committee fill out the lists of those not taken care of in the other way with funds thus sent in. Either way is good, but the first way is the best and will save the committee much work, for they will have plenty to do.

Dixon Evening Telegraph,
Goodfellow Club,
Gentlemen:
I will be Santa Claus to (state number) children. Send me names, addresses, ages and all information.

WOLGAST LOSES TITLE ON FOUL

Champion, Almost Helpless in Sixteenth Round, Strikes Ritchie Below Belt.

VICTOR IS POPULAR FIGHTER

Michigan Boy Is Knocked Down in Final Battle Period—Joe Rivers Defeats Mandot in Twenty Round Go at Los Angeles.

San Francisco, Nov. 29.—Wabbling on leaden legs, his eyes glazed and his body reeling, Ad Wolgast, conqueror of Battling Nelson, fouled Willie Ritchie twice in the sixteenth round of their fight at Daly City Thursday. With the wave of Referee Jim Griffin's head, which disqualified him, the lightweight championship of the world passed, for the first time in Queensberry history, into the keeping of a Californian.

End Is Unexpected.

The unexpected end of the fight came after those at the ringside noticed in the fifteenth round that Wolgast's strength was waning a mite. The boys faced each other in the sixteenth, Ritchie confidently carrying the milling to the now serious champion, from whose face the sneering smile had passed. As Wolgast was going away, Ritchie made him wince with a two-handed volley to the mid-section, and then, quick as the bat of an eye, a crushing right shot out and caught the Cadillac fighter fairly on the jaw. He fell back on the ropes and sagged, pitching forward in another instant toward his corner. Ritchie crowded him, and as he raised his head the San Franciscan repeated the right cross. Wolgast, the invincible, went sprawling.

Wolgast Recovers.

Official Time Keeper George Harting, who has been counting out champions for thirty-seven years, began to toll the seconds. At the count of four Wolgast, his brain clouded, flung himself, through sheer instinct, at his antagonist. Ritchie, true to his agreement, had skipped across to the opposite side of the ring when his opponent went to the canvas. As Wolgast came at him he rushed to meet him and the two exchanged blows. Wolgast was badly dazed, but he covered so that Ritchie could not send in the finishing smash.

Wolgast Strikes Low.

Only twenty-four seconds remained of the life of the round. Ritchie, near his own corner, poised the deadly right cross again. When Wolgast's left took him low, Billy Nolan, his manager, leaped to the edge of the ring and shouted to Referee Griffin, and hundreds of voices raised the cry of "Foul!" "Foul!" Griffin rushed over and cautioned Wolgast. In another instant the left rip of the champion found the same sore spot. Ritchie tried to fight back, but he was painfully in distress.

Griffin, without hesitating, rushed between the fighters, pushed Wolgast aside and raised Ritchie's hand in token of victory. The crowd at the ringside cheered him and hundreds rushed to shake his hand when he left the ring. Ritchie was taken to a bathhouse and Wolgast went to his Ocean Beach training quarters immediately after the fight.

Rivers Wins From Mandot.

Los Angeles, Cal., Nov. 29.—Once again we have the brown hand of Joe Rivers reaching out to grab the fellow who owns the lightweight title. In the same ring at Vernon wherein he was beaten by Joe Mandot some two months ago, the Californian "came back" and whipped the game New Orleans Frenchman, cut him to bits, as the old followers of the game say. There is left no room for argument as to the question of superiority between the little boys. Rivers beat Mandot in everything that goes to make up a 20-round contest.

TWO DEAD; 3 WOUNDED

Englishman Killed When Nicaraguan Soldiers Fight With Police.

Washington, Nov. 29.—Advices to the state department report a fight in the streets of Managua, Nicaragua, between Nicaraguan police and soldiers, in which an Englishman was accidentally killed, one soldier killed and one mortally wounded and two soldiers slightly wounded. The native soldiers, it is reported, were under the influence of liquor when the fight occurred, but quiet was soon restored.

DOMINICAN PRESIDENT OUT

Victoria Resigns Office and Many Political Prisoners Are Released.

Santo Domingo, Dominican Republic, Nov. 29.—The resignation of Eladio Victoria, president of the Dominican republic, was tendered and formally accepted by congress. Many political prisoners were shortly afterwards released from confinement. Hostilities have been suspended throughout the republic.

AUTO AND OCCUPANTS WERE DITCHED WED.

JANESVILLE MAN AND COMPANION HAD MIRACULOUS ESCAPE NEAR BRIERTON FARM.

SLIGHT CONCUSSION OF BRAIN

McChesney Struck on His Head and Was Quite Severely Injured—Released From Hospital Yesterday.

A civil engineer named McChesney, whose home is at Janesville, Wis. and who has been working near Ottawa, had a narrow escape from serious injury or death Wednesday afternoon when, because of the failure of the steering apparatus of his auto, in which he and a companion were making the trip from Ottawa to Janesville to spend Thanksgiving, broke and threw the car into the ditch near the Brierton farm, east of Dixon.

It was about 3 p. m. when the car carrying the men became unmanageable. While traveling at a fair rate of speed the mechanism controlling the steering gear broke and before McChesney could stop the engine or apply the brakes the car swerved to one side and turned completely over.

Slight Concussion of Brain.

McChesney was thrown to the ground with great force and struck on his head, but his companion escaped with a few bruises. The force of his fall rendered McChesney unconscious and it was some time before he was resuscitated. He was taken to the Dixon hospital where his injuries were attended. He suffered a slight concussion of the brain and a bad gash over the right eye required dressing.

However, the young man recuperated sufficiently to leave the hospital yesterday morning and he and his companion left on the morning train for Janesville. The car, which was quite badly damaged, was brought to the Miller garage, where it will be repaired.

I. C. S. EXHIBIT IS

CONTINUED OVER SATURDAY

There has been so much interest shown and such a large number of people enrolled for courses of study that the officials of the Intercontinental Correspondence Schools of Scranton, Pa., wired their manager, W. M. Rowe, to continue the display of local students' work at Brown's dry goods store over Saturday; this will give a few more ambitious young people an opportunity to enroll and get the benefit of the special club discount now being allowed. It is well worth investigating and our young people should not fail to see the excellent work gotten out by local students.

As a special feature the will have a young lady sketching in the window each evening. Any boy wanting a cartoon of himself can get one by calling at the Exhibit.

NEW LIGHTS FOR MORRISON

The Illinois Northern Utilities Co., through its agent, Charles Yonts, made a proposition to the city of Morrison which was to the effect that the company will install five three-light clusters in the business district of the city for the annual cost of \$225. Mr. Yonts suggests that one cluster be placed where each of the three are lights is now situated and that one cluster be placed in the center of the Main street between Cherry and Genesee streets and the other midway between Genesee and Base streets. The price of \$225 is the same as the city is now paying for the three are lights. The five three-light clusters would furnish a power of 900 candle power, which would illuminate the city very brilliantly.—Whiteside Sentinel.

HUNTING PARTY.

A party of 12 men from Dixon made a hunting trip to Lost Nation yesterday, bagging considerable game. The men were Miles McCune, Geo. Prescott, Arthur Alger, Elmer Ryerson, Jas. Boyer, Edw. Sarwine, John Moyer, Chas. Plein, Chas. Walgren and F. X. Newcomer.

Mrs. K. B. Segner and children are visiting in Chicago.

COLLEGE BLANKED THE CHICAGO VET TEAM

LAST GAME OF SEASON WAS AN OVERWHELMING VICTORY FOR DIXON.

GAME WAS VERY INTERESTING

44 to 0 Tells the Awful Story—Last Game for Coach Fingal Was Credit to Him and the Institution.

Dixon college football team closed their season yesterday afternoon by completely swamping the Chicago Veterinary college team, 44 to 0. The game was momentous in every particular: It was the last organized contest of any kind that will probably ever be played on Athletics park and it also marked the completion of Coach Fingal's praiseworthy career as a Dixon college athlete and coach. For the past several years Fingal has been the center of the college's strength. With the material at his command he developed some excellent teams and his retirement will leave a vacancy in college athletic circles next year that will be hard to fill.

Superior work in every department won for the local boys. From the very first it was evident that Dixon would run away with the game. Forman, Kemper, Hogan and Gorham starred especially for President Edwards' team. Each handled the ball cleanly, but Hogan had trouble kicking goals, a strong wind bothering him greatly. However, goals were not needed, as the game was never close. Gorham pulled the real sensational play of the game when he intercepted a forward pass, and chased 40 yards for a touchdown, completely eluding the Chicago team.

FEARS DENIAL OF PAROLE; KILLS SELF

FRANK HOWARD, 21, COMMITS SUICIDE AT SAVANNA SUN-DAY

Sunday afternoon, Frank Howard, a young man, 21 years of age, who lived with his widowed mother and two brothers in Savanna, committed suicide by shooting himself in the left breast. The young man was sitting in the parlor with his little brother Paul, on his lap. A revolver belonging to one of the roomers, was lying on a table near by, and young Howard suddenly put the little boy off his lap, reached over to a table standing near on which lay a revolver belonging to a gentleman who roomed at that place, and fired. He died instantly. A physician was summoned, but death came before he reached the young man, and Coroner Schreier was then summoned, who held an inquest.

Howard was under bonds to appear before the circuit court at this term, as Judge Farrand refused to parole him at the last term of court, but told him that if his conduct was good, he would be paroled at this term. He appeared at Mt. Carroll last Monday before Judge Heard, but as his conduct was not of the best, he was fearful that he would not be paroled and would have to go to jail, and this preyed considerably upon his mind. It is thought, and caused him to commit the deed.

Leo Kiester who spent Thanksgiving with his folks in Garden Prairie, returned to Dixon last night.

Hungry? Neither are we. Twenty-six days until Christmas. Another holiday. And another feed. And a mighty short time to do that X-mas shopping. Following our usual custom we will now commence to advise our readers to do it early.

The Newspaper Man.

Tugged by some centripetal force to wherever there is a clash of human passions, he is always "on the spot." Unlike his brother, the novelist, who fashions out of the furnace of his mind at painstaking intervals some finely modeled bit of porcelain, the furnace of this man's soul is always at full draft. Into it is flung day by day, all the inflam-

mable stuff of life—the mixed ingredients of heroism, murder, revolution, passionate love. And steadily, inexorably, it is poured out again, uncritical of itself, slag and ore, half drivel and half literature. The recompense he works for is to have his fellow workers say "Good story." His only critic is "the desk." Today yesterday's "good story" is lighting the morning fire in a thousand tenements. Anonymity, which guards him from self-consciousness, stands also mockingly between him and fame. He snatches his friendships like his meals, as stokers must strike up their friendships between shifts when the Mauretania is "out for a record." Yet there is no free masonry like his. From behind the scenes he makes the vappets of the world's stage dance for us. But we can suspect his smile, as he surveys our antics, to be something between pity and contempt. (Collier's Weekly.)

The original of Jimmie, the boy who was always forgetting the baby, has been found in Dixon. He is a barber and his first name is James, and he is a member of the O. K. barber firm. He forgot his baby cab at the N. W. depot a few days ago and had the entire police force looking for it. Ask him for particulars.

The Grocer who sells Zephyr Flour has to be a square dealer in all things

Wherever we introduce Zephyr Flour, we pick out the grocer with the highest reputation for square dealing and high quality of food stuffs. We do this because Zephyr Flour is too good, too carefully milled, to run the risk of falling into bad company.

Zephyr Flour

is made from the famous hard wheat of Kansas—the best wheat grown.

Homes that use this flour are famous for their bread and biscuit, their pies and cakes. Zephyr Flour makes a bigger, whiter, lighter loaf.

Grocers who sell Zephyr Flour sell it with the positive guarantee to refund the full purchase price if Zephyr Flour fails to satisfy. We protect the grocer with our guarantee.

Our chemists test every car of wheat upon receipt—they test the semi-milled flour as it passes through the mill—and finally the flour as it comes to you is thoroughly analyzed. Their report of tests is in each sack and it is good for another sack of Zephyr Flour in case you are dissatisfied. These tests are just one of the many ways by which we keep Zephyr Flour always uniform and of very highest quality and safeguard your health.

Fried oysters which have been left

ver may be minced and have added
to them an equal quantity of chop-

ally delicious.

(Original)

A la Mushroom
Chop oysters in the gravy of a
very juicy porterhouse steak. They
will be as good as mushrooms.

Dutch Apple Cake
One pint of flour, one third cup of
butter, two teaspoonfuls of baking
powder, one egg, one half tea-
spoonful salt, one cup of milk, one tea-
spoonful of vanilla, five apples, one
quarter pound sugar.

Mix and sift thoroughly together
the flour, baking powder and salt.
Rub in the butter, beat the egg, add
to it the milk, and stir it into the
dry mixture, making a soft dough,
enough to spread half an inch thick
on a shallow pan. Core and pare
the apples, cut them into eighths,
lay them on the top of the dough in
parallel rows, sharp edge down, and
press so the edge will penetrate
slightly. Sprinkle over the sugar,
and bake in a hot oven twenty-five
minutes. Serve not as a tea cake
or with sauce as a filling.

Cabbage and Beet Salad

boiled beets with two cupfuls of cab-

spoonfuls of horseradish.

Date Fudge with Chocolate
Quarter pound of dates, 2 cupfuls
of sugar, half cup milk, 2 squares
of chocolate, 1 teaspoonful of vanilla,
1 heaping teaspoonful of butter.

Stone the dates and cut them into
small pieces. Mix the sugar, butter,
and milk, and add the chocolate in
broken pieces. Boil for five minutes.
Remove from the fire and add the
dates and vanilla. Stir till creamy
and turn into a buttered pan. When
cool, cut as desired.

Angel Drop Cakes.
Beat the whites of two eggs until
frothy and add one-fourth tea-
spoon cream of tartar and beat until stiff;
then add gradually while beating
constantly, one-fourth cup fine gran-
ulated sugar and one eighth tea-
spoonful of vanilla. Cut and fold in
one fourth cup flour mixed with a

few grains of salt and sifted four
times. Drop from the tip of a tea
spoon one inch apart, on an inverted
pan, covered with unbuttered paper.
Sprinkle with sugar and bake from
ten to twelve minutes in a moderat-
oven.

Ribbons Flowers for the Table
The craft of ribbon flowers has
taken tremendous strides within the
past few months, and some of these
fabrie -fashioned flowers are no
only almost as natural in appearance
as real blossoms but—as one woman
put it—"ever so much handsomer
than garden flowers." Instead of be-
ing used only as trimmings for
costumes and lamp shades, ribbon
flowers have been promoted to the
honorable position of table decora-
tions and roses, tulips, lilies and or-
chids made of ribbon have decora-
ted some of the fall luncheon and
wedding breakfast tables of high de-
gree.

A typical centerpiece of ribbon
roses, mounted artistically upon
dried ferns in one of the stained
wicker baskets is now fashionable
for interior decoration. The roses
shade from pale pink to a deep Am-
erican beauty shade, and sway on their
ribbo wound wire stems in a most
graceful and natural attitude. Clus-
ters of ribbon roses are pinned
against huge shirred chiffon muffs,
worn during the late fall season in
the milder climates. One of the pret-
tiest uses for the ribbon flowers is
the decoration of charming negligees
and the girl who can twist ribbons
into dainty flower shapes can fash-
ion distinguished dressing jackets
and boudoir caps.

A Few Household Helps
It is a good plan to have a piece of
pumice stone always handy about
the sink. It will remove spots from
all kinds of ware without defacing
the ware.

When you undo a parcel fold the
paper and tie the string around it—
there will always be string to fit a
bundle without looking for one.

In baking fish, lay the fish first on
a piece of clean greased cotton cloth,
then lay it in the pan. It can be
lifted out easily when done.

If the clothes boiler leaks while
in use, the hole may be temporarily
stopped up by putting a handful of
corn meal into the water. It will
fill the hole.

BEST FOR DANDRUFF, FALLING HAIR OR AN ITCHING SCALP--25 CENT "DANDERINE"

SAVE YOUR HAIR! DANDERINE DESTROYS DANDRUFF AND STOPS FALLING HAIR AT ONCE—GROWS HAIR, WE PROVE IT.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous you must use Danderine, because nothing else accomplishes so much for the hair.

Just one application of Knowlton's Danderine will double the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then

the hair falls out. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, don't hesitate but get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now? A 25 cent bottle will truly amaze you.

HOME HEALTH CLUB.

By Dr. D. H. Reeder, Chicago, Ill.

DIPHTHERIA: Diphtheria is a highly infectious, contagious and profoundly toxic (poisonous) disease of childhood, due to the Klebs-Laffler bacillus or germ (named after the discoverers), characterized by the development of a false membrane in the nasal cavity, in the post nasal cavity and in the throat. It usually develops on the mucous membrane of these parts. The disease is spread by direct contact, contagion (cough dissemination), clothing and drinking utensils, pencils, school books and intermediaries such as parents, nurses and physicians. Also food stuffs, pet cats and dogs, room or street dust may convey it. We do not believe that a perfectly healthy child will contract the disease, but an acute cold, over eating or some other disease may lower the resistance of the mucous membrane of the nose and throat, allowing the germs to gain a foothold.

It will be impossible to give you any definite, early symptoms of the disease, since many cases show but little fever and appear to be a comparatively mild attack of tonsillitis with no marked throat symptoms, while on the other hand what appears to be a true membrane upon the tonsils and the throat may prove upon microscopic examination to be non-diphtheretic. Ordinarily, however, there is a general feeling of illness accompanied by chilliness, followed by a fever running from 100 to 103 degrees F. during the first day, and there is nearly always sore throat, and what is far more important, as an early sign, enlargement of the glands at the angle of the jaw. A true membrane of diphtheria is grey or drab (mouse color), dirty and unusually snaky and if removed leaves a raw bleeding surface. One prominent medical authority says, "Membranous croup has properly been shelved by modern methods of diagnosis and replaced by laryngeal (throat) diphtheria which in 99 per cent of such cases is the proper descriptive term."

We do not wish to discuss treatment of diphtheria, but always advise the family to call a competent physician and abide by his decision. We will say this much, however, in regard to treatment that should you suspect that one of your children has diphtheria, you can do these things until the physician arrives: First, get the child's feet warm by giving a hot foot bath and put him to bed with hot water bottles at his feet. After you have equalized the circulation give a high rectal injection or enema to cleanse the bowels. Next you may clean out the mouth and throat with some antiseptic, so-

lution, such as listerine, glycothymoline, or if you haven't these you may use white vinegar (not too strong) or a solution of salt. To get these down into the throat prepare a swab by wrapping a small stick with soft cloth. It is wise to have on hand Schuessler's tissue elements for diphtheria, and if a physician cannot be had promptly, use them vigorously.

As to whether immunizing treatment may be given to other members of the family, must be left to the decision of the parents and the attending physician.

According to the bulletin of Mortality Statistics for the year 1910 the death rate was 21.4 per 100,000 population, being an increase over the preceding year, which was 20.4. Even with the use of antitoxin, which we are told is a specific, diphtheria continues to cause about double the deaths of measles, scarlet fever or whooping cough.

Club Notes.

Dear Doctor:

Can sciatica be cured by the buttermilk treatment which was published some time ago? If not, what will? Kindly answer through the columns of this paper and oblige.

R. W.

Whether the buttermilk diet will cure sciatica, of itself, depends upon the cause of the disease. The diet will aid in the treatment of any case.

If the disease is due to a poisoned and generally run down condition of the system, or to muscular strain, cleansing the system, using hot fomentations and massage, with the diet, ought to cure it. If it is due to a bony lesion, or slip between the bones of the spine or of the pelvis then the services of an osteopathic physician should be employed.

All readers of this publication are at liberty at all times to write for information pertaining to the subject of health. Address all communications to the Home Health Club, 5039 Cottage Grove Ave., Chicago, Ill., U. S. A., with full name and address and at least four cents in postage.

Polo, Nov. 29—Special—Jay Stevenson, a well known young man residing in this city, died at his home at 1:30 this afternoon after a brief illness. The young man, who would have been 18 years old in March, is the son of Mr. and Mrs. L. Stevenson. He was a high school student and a member of the football team. He was taken suddenly ill last Wednesday and the nature of his trouble does not seem to have been plain to his physician. Funeral arrangements have not yet been completed.

Dr. C. E. Smith and wife are visiting in Bloomington until Sunday.

DIXON OPERA HOUSE.

"The Sweetest Girl in Paris," after a run of 250 performances at the LaSalle opera house, Chicago which is the record long run of any production this year in America, will be at Dixon opera house Monday evening, Dec. 2d.

This comedy with songs is one of the few musical comedies written in which the story is connected from beginning to end and were there not a song introduced it would be a pleasant evening's amusement.

The authors of the play are all well known in this country. Addison Burkhardt who wrote the book, has to his credit such successes as The Runaways which ran at the New York Casino a year and four years on the road. The Mimic World, another Casino success, The Pink Hussars, which he doctored into the highly successful His Honor the Mayor, besides many other successes too numerous to mention. Collin Davis is a well known lyric writer, probably one of his greatest achievements being the making of Three Twins from a first night failure into one of the greatest successes of years. Of Jos Howard, who is responsible for the score, his record is one long list of hits; some of them are The Time, The Place and the Girl; The Girl Question; The Prince of Tonight; Princess; The Prince of Tonight; The Flower of the Ranch, and his last and greatest triumph, the play which will soon visit our city.

Mrs. Ellen Lenhard of Hanover, Pa., is visiting at the home of Mr. and Mrs. Val Heft.

Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged. This—the quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription.

We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that D.D.D. stops the itch at once. We just want you to give D.D.D. a trial. That will be enough to prove it.

Of course, all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute.

If you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.

PATRICK LEAVES JAIL

After Eleven Years Pardoned Attorney Is a Free Man.

Has Dinner With Brave Little Wife—Incarceration Does Not Appear to Have Hurt Him.

New York, Nov. 29.—The barred door of Sing Sing swung open for Albert T. Patrick. At exactly 4:25 o'clock the lawyer, who for nearly eleven years was cooped up in the gray-walled prison, convicted of the murder of William Marsh Rice, his millionaire client, stepped out, a free man, pardoned by Governor Dix.

With the release of Patrick there began the long-deferred honeymoon with the brave hearted little woman who married him ten years ago, when he was taken to the Tombs after his sentence to the electric chair. In the apartment ready for him at No. 180 Claremont avenue, Patrick, after a dizzy automobile ride from Ossining, sat down to a Thanksgiving dinner with Mrs. Patrick.

Patrick, shutting himself from the world, saying that he had no word to offer until he had "regained his perspective," devoted himself to a feast sweetened by the breath of freedom so unexpectedly given to him.

As Patrick emerged from Sing Sing he showed the superb nerve that has stood by him in his long confinement. Stouter than he was when he walked the pathway leading to the prison in April, 1902, the lawyer appeared to be the picture of health. His step was firm, his frame unbent. If the lawyer was borne down by the weight of his plight, his looks failed to reveal it.

As Patrick left the prison Warden Kennedy handed him \$50.67, of which he had earned \$40 during his incarceration. The state gives departing ex-convicts \$10, in addition to the money they have earned, which goes at the rate of a cent and a half a day, besides carfare home. In Patrick's case the carfare was 67 cents.

AMBASSADOR REID IS ILL

Reported in a Serious Condition and Under Physician's Care.

London, Nov. 29.—Ambassador Whitelaw Reid's absence from the annual dinner at the Savoy hotel of the American society in recognition of Thanksgiving day gave rise to inquiries, which resulted in learning that Mr. Reid is in a serious physical condition and is confined to a room under his physician's care. It is understood that the ambassador is threatened with a nervous breakdown so serious as to make probable the cancellation by him of all social engagements.

MANILA TORNADO KILLS

Severe Typhoon Sweeps Over Islands of Philippine Group.

Manila, Nov. 29.—Many lives were lost during a severe typhoon which occurred Thursday, causing damage to property.

The storm, which was very violent, crossed the islands of Samar, Leyte and North Panay, leaving ruin in its path. The town of Tacloban, the capital of Leyte, was practically destroyed. Two steamers were wrecked in Tacloban harbor.

White Defeats Pelky.

Chicopee, Mass., Nov. 29.—Sailor White, the sensational heavyweight of New York, handed out a terrific lacing to Arthur Pelky, the local heavyweight, in a ten-round bout. The slugging sailor had the better of eight out of the ten rounds.

MEXICANS INVADE U.S.

Armed Men Cross the Border Into New Mexico.

Large Number Ride Into Southern State and Threaten to Make Raids on Three Towns.

Albuquerque, N. M., Nov. 29.—A large band of Mexicans, well mounted and heavily armed, invaded New Mexico.

They threatened raids on the towns of Monticello, Fairview and Cuchillo in Sierra county, 100 miles from the border.

The news of the invasion was received at Hillsboro in a message from Sheriff W. C. Kendall of the county, who wired as follows:

"Robert Martin, a rancher, reports a band of twenty-six heavily armed and mounted men, supposed to be Mexican rebels, west of Monticello, making inquiries among natives as to the amount of stores and supplies at Monticello, Cuchillo and Fairview. People of these towns have armed themselves and are prepared to offer resistance if a raid is attempted. Notify every one."

Immediately on receipt of the message at Hillsboro a posse of fifty men was formed. They have left for the scene of trouble, with a view of engaging the marauders in battle or driving them from the state.

Great excitement prevails in the towns, and, with the citizens prepared to resist the invaders, a clash is not unlikely.

United States Marshal Romero of this city was advised of the invasion, and he in turn communicated with United States Attorney S. P. Davis at Las Vegas. Mr. Davis wired Attorney General Wickersham for instructions.

HOLD INDEMNITY FUND

Southern Surety Co. Will Not Surrender Bond Securities.

U. S. Attorney Miller Announces He Will End Prosecution in Bomb Case Today or Tomorrow.

Indianapolis, Ind., Nov. 29.—Testimony of Edward Cole, storekeeper of North Randall, O., that he met the defendant, Nipper Anderson, in the rooming house from the big ore conveyor that had been dynamited on March 25, 1911, causing a loss of \$60,000, the testimony of Robert G. M. Ross, who worked as a union organizer in Detroit, to the effect that Hiram Cline, the carpenter's organizer, had confided to him that there was a plot to blow up five buildings, Ross' story of his dealing with other defendants and the announcement by United States Attorney Miller that he had received word from the Southern Surety company that it would not surrender the indemnity that it holds for going on the bond of Pete Smith, Nipper Anderson, J. E. Munsey, H. W. Legleitner, Frank K. Painter and Phillip A. Cooley were developments of the dynamite trial here.

Mr. Miller served notice that he would take up the bond question again. Mr. Harding said that some time the defense would be able to know definitely about certain matters in relation to the bonds.

The district attorney also notified the defense that the government will probably close its case tonight or early tomorrow.

These, if the will holds good, include a row of six houses, in one of which she died, several lots and almost \$300,000 in cash and securities in the People's Trust company and the Brooklyn Savings bank.

BRYAN WILL SEE WILSON

Hamilton, Bermuda, Nov. 29.—The possibility of Bryan visiting Governor Wilson during his stay here is precluded by a letter which the president-elect has just written to Bryan making an appointment for a conference in New York. WOMAN DIES IN HOVEL

Aged Recluse, Worth a Million, Dies Amid Squalor.

Burned and Suffocated While Cooking Thanksgiving Dinner—Twenty Dead Cats Found Near Body.

New York, Nov. 29.—In a hovel she called home, scarcely fit for the cats who were her only companions, Miss Octavia Friedrich, seventy years old, reputed to be worth nearly a million dollars, was found dead.

She had been burned and suffocated while cooking her Thanksgiving dinner. By her side were 12 of her pets dead. Eight others stupefied were found in another room of the second floor of 24-26 Hoyt street, Brooklyn, where she lived for a half century.

All her money will go to Antonio Oreckinto, a barber who had a shop in the ramshackle old building, and who for 12 years had collected her rents and acted as her agent in all matters. Oreckinto gave out a copy of a will which she said she had made on the twenty-sixth of September last, leaving to him all her earthly possessions.

These, if the will holds good, include a row of six houses, in one of which she died, several lots and almost \$300,000 in cash and securities in the People's Trust company and the Brooklyn Savings bank.

A brother and sister, Alphonso and Emile Friedrich, with whom she quarreled, it is said, 25 years ago, are living in San Diego, Cal.

Roosevelt has decided to attend the

SERVIANS OCCUPY PORT OF DURAZZO

Great European Powers to
Call Conference to Settle
War Questions.

AUSTRIA'S ACTIONS DISTURB

Country Continues Arrangements for
Mobilization of Army—Believed in
Sofia That a Treaty of Peace
Will Be Concluded Sunday.

London, Nov. 29.—Durazzo, the Al-
banian Adriatic port, was occupied by
Serbian troops. The occupation was
peaceful. The Austrian Lloyd steam-
er Graf Wurmbrand, which has been
in the port of Durazzo for several
weeks, left immediately crowded with
refugees.

The effect of this move on the
part of Serbia will be watched with
the greatest interest. Durazzo being
the port which Austria wishes to re-
tain and which Serbia wishes to an-
nounce must not be held by Serbia.

The independence of Albania, which
has been proclaimed, evidently cut no
figure in the Serbian occupation.

Great Powers to Call Conference.
Advices from Constantinople indi-
cate that the peace negotiations are
progressing satisfactorily along the
Tchatalja lines. An exchange is go-
ing on among the great powers look-
ing to a full conference of all Euro-
pean powers. Should it be called it
will likely be considered as preparatory
to a later and full conference
which would include the Balkan states
and Turkey for a final settlement of
all questions arising out of the war.

Nothing has been decided upon as to
where the conference shall be held
or precisely what questions shall be
discussed. The project appears to
have arisen out of the general irrita-
tion over the delays in a telegraphic
exchange of views.

Austria's Actions Disturbs.
There is considerable excitement in
Vienna over the action of the Austrian
government in continuing its arrange-
ments for the mobilization of the Aus-
trian army, which show that country's
determination to be fully prepared for
any development in

BROKEN RAIL CAUSED TRAGEDY

One Day Coach and Three Pullmans
Roll Down Steep Embankment
Upon String of Coal Cars—
Passengers in a Heap.

Philadelphia, Nov. 29.—Four persons
were killed and fifty injured, some of
them fatally, when the Cincinnati ex-
press on the Pennsylvania railroad
was derailed at Glenloch, twenty-five
miles from this city. The train, a
double-header, was running at the
rate of fifty miles an hour when the
accident occurred. Derailed, it is be-
lieved, by a broken rail, one day coach
and three Pullmans, all of steel con-
struction, rolled down an embank-
ment, upon a string of coal cars
standing at a lower level upon a
parallel track.

Passengers Pinned Down.
The cars with their human freight
tossed about the seats, berths and cor-
ridors were piled high on both sides
of the coal cars, some of which were
derailed and turned around by the
force of the impact. The passengers
were pinned under large piles of de-
bris and many of them were not re-
scued for several hours, suffering in-
tensely, not only from their injuries,
but from the biting cold weather.

The Dead.
J. E. Collins, passenger, Buffalo,
N. Y.
Howard E. Baldwin, Pullman con-
ductor of Brooklyn, N. Y.
Edwin R. Jones, Pullman conductor,
Pittsburg, Pa.
L. D. Finley, passenger, Pittsburg,
Pa.

The Seriously Injured.

York.

L. Neffah, Pittsburg, Pa.
Bertrand Bush, Harrisburg, Pa.
Rev. S. G. Wilson, Indiana, Pa.
Mrs. B. Hosko, Cleveland, O.
Miss Ruth Hudnut, New York.

Broken Rail Caused Wreck.
The train was composed of a com-
bination baggage and smoker, one day
coach and six Pullmans and was
pulled by two heavy locomotives. The
train was running along on scheduled
time, which calls for an average of
about thirty-eight miles per hour,
when the accident occurred. The
broken rail, which is thought to have
caused the accident, was on a bridge
east of Glenloch. Both locomotives
and five cars jumped the track,
bumped along the rails for a short
distance and then rolled over and
down the embankment into the string
of coal cars. The steel cars of the
passenger train stood the impact well,
although the ends of several of them
were crushed.

System In Moving Trains.

The dexterity with which dispatch-
ers and towermen juggle trains in a
great terminal is a marvel of modern
life which, on account of its very mag-
nitude, goes unnoticed. While the
nightly crush and scramble in the sub-
way, where trains run on a one-min-
ute schedule, has for years furnished
material for kickers and humorists,
few persons realize that the maze of
great expressways and local runs in and
out of the Grand Central during rush
hours under shorter headway than the
surface cars on Broadway. The num-
ber of people who arrive and leave
the terminal daily is now about 125-
000, or nearly 1,000,000 every eight
days. Yet there is little or no confu-
sion.—New York Sun.

Powerful Electric Locomotives.

A Swiss railroad is building the
most powerful single unit electric lo-
comotives that have ever been design-
ed up to the present time. The road
will have ten of these engines, each
of which will weigh 108 tons. At a
speed of 50 miles per hour they are
capable of developing 2,500 horse power,
with a possible increase of speed to
70 miles an hour for an uninter-
rupted run of one and one-half hours.

Usual Thing.

"I see," said the guinea pig, timidly.
"that they say you are the cause of
the increasing cost of eggs."
"Yes," responded the hen, wearily.
